WIDE RECEIVER

OTES
NK: Player's rank according to FantasyPros formatted by round and pick (so 1
ne 3rd pick of the 1st round, or #3 overall). Values that are struck through me
more than a round before the rank. Values that are underlined mean the AD
nan a round after the rank; two underlines means two or more. Note; these A
redictions do not apply to 2QB leagues!
/Y/P: Number of weeks last year that a player scored to be a starter at the X
etter, Y level or better, or played. For example if X is 1, Y is 3, and a WR's X/Y
1/3/15 then they played 15 games, scored as a WR3 or better in 3 of them, a
s a WR1 in one.
AL: Player's projected weekly value relative to a baseline player (the number
arenthesis after each position in the title). Player cells are shaded based on tl
alue

parenthesis after each position in the title). Player cells are shaded based on the tiers of
value.
PS: Positional scarcity, which is the percentage of positive value remaining in the position
after that player is taken.
